

Hello Game Trail Owners

The Forestry Committee is organizing a presentation on tree health and fire mitigation for Saturday, March 5, from 10-11:30 a.m. at the BV Library. Any interested Game Trail resident is welcome!

Local tree service professionals Sean Shaffer and Craig Keathley from Out on a Limb Tree Service and Dave Ludders from Bristlecone Tree Care will cover:

Tree Health: Being a good steward of your trees. Dwarf Mistletoe and the secondary problems it can foster (destructive bugs).

Fire Mitigation: Treating your immediate defensible space zone and potential consequences if you don't.

The presentation will be about an hour long followed by questions. Space is limited. **If you plan to attend, please RSVP to kariallenbv@gmail.com ASAP but no later than March 3.**

All three presenters are certified arborists who work in our area. If you would like to read more about them and their services, their websites are:

Out on a Limb Tree Service <https://outonalimbtreeservices.net>

Bristlecone Tree Care <https://bristleconetreecare.com>

We appreciate your interest and efforts in keeping Game Trail's forest healthy and fire resistive. We look forward to seeing you!

Kari Allen, Game Trail Forestry Committee Volunteer
